

# V-Band Segment Set Tooling

... allows you to easily fabricate V-band attachments.

- V-Band clamps are used in commercial, industrial, and racing applications
- Reliable and heavy-duty enough to be used extensively in space vehicles and satellite launch systems.
- Proven in racing applications including high pressure turbo applications.

New!

- Excellent for normal exhaust and intake systems.
  - Lighter, quicker and easier to take apart (Compared with 2-bolt or 3-bolt flanges).
  - Improve quality, save money by eliminating welds.
  - Available to handle 2-inch through 3-inch tube sizes.
