Get Organized and Save Time with Huth's New Ready Rak II

With Huth's new Ready Rak II (part no. 91176) you can keep all your most-used end-finishing tools within easy reach of your swager/expander.

The Ready Rak II is 25-1/4" x 5" and it's seven large trays are 5" deep for easier access, especially with 3" tooling.

Ideal for 3" tooling
25-1/4" x 5", 17 Slots,
7 Trays (5" Deep)

Part no. 91176

Part no. 986

5" Exhaust Pipe Shaper

Machined, welded and heat treated - the "Shaper" is a simple yet effective tool made to repair dented and damaged pipe ends or muffler inlets and outlets.

Designed to re-shape both the inside and the outside

of pipe without the use of electrics, pneumatics or hydraulics - tool is virtually maintenance free.

For tubing from 1¾" - 5" O.D.

The "Shaper" makes fitting pipes easier and eliminates waste.

Part no. 982

H986 Exhaust Support Stand

The Huth Exhaust Support Stand is designed to safely support exhaust components – keeping your hands (and other technicians) free to install the rest of the exhaust system. Its oversized support tray stands 47″ from the floor, extends to 79″ and rotates 360 degrees. Plus, the spring loaded, quick-release extension is self-locking. Like all other Huth products, the EXHAUST SUPPORT STAND is built to last!

Rod Bracket Bender

Part no. 985

If you own a Huth Bender, you already know the profits you can make by bending your own exhaust pipes. But for some systems, you probably still order prebent pipes just to get the prebent brackets. Don't.
Stop throwing away your profit margin, and bend the brackets yourself. It's easy with the Rod Bracket Bender (part no. 985). Quickly bend hanger brackets from material as large as 1/2" diameter round or 1/4" x 1" flat. Install it on the expander of your Huth Bender and watch it pay for itself.

Grommet Grabber

Part no. 987

The Grommet Grabber is designed to remove hanger brackets from their rubber mounting grommets with a squeeze of the handles. To get this timesaving tool, order Part number 987.
